INTRODUCTORY

IN presenting our price list for 1913 we again take this opportunity to thank our customers for their very liberal support and patronage, and to assure them that their orders will receive as careful attention in the future as they have done in the past.

All our business relations last year were exceedingly satisfactory. We did not receive one complaint regarding the quality of the stock sent out, but on the other hand, many customers wrote thanking us for the high quality of stock sent them; all of which we very much appreciate.

This year we have more than doubled our greenhouse capacity, and have otherwise added considerably to our stock and facilities, and are now in a better position than ever before to handle high class stock.

We shall always exert ourselves in maintaining our reputation for high class goods, and those who intrust us with their patronage may rest assured that the stock supplied will be the very best procurable.

CHRYSANTHEMUMS

NOVELTIES FOR 1913

The Chrysanthemum has become a big problem to the novelty introducer. The standard today is already high and hard to beat, and we have all to be extremely critical in our selections. This year we have tried out over fifty new aspirants, some of our own raising and others from the most reliable sources. By rigid selection we have narrowed this list down to the five offered below. In them we consider that we have something quite distinct and superior in the color and season to any existing sorts and can thoroughly and conscientiously recommend them. The stock offered is strong healthy plants from 2¼-inch pots and success from the start will be assured.

Rowland Hill (Jones). This is unquestionably the finest thing that we have ever imported, and can be best described as a massive and glorified "O. H. Broomhead." The color is a pretty rose pink. The florets are long, reflexing and of medium width. This is a sure winner. Take bud August 10th to 15th. See front page illustration. **Price \$1.00 each; \$10.00 per doz.**

E. S. Brookes (Jones). A very fine crimson, slightly shaded claret, long reflexing florets, of good substance, a broad deep and well-built flower; very effective and an easy doer, very full. Take bud August 20th.

Mary Hollert (Carpenter). An immense creamy white of fine form, with long narrow florets, of good substance, slightly incurving at the tips, a strong robust grower and makes an immense flower. Take bud August 10th.

Mrs. Percy N. Wiseman. A very handsome true incurved variety which might be described as a primrose colored "Merza." The florets are long, of medium width and good substance. They incurve naturally, building up a flower perfect in shape and great solidity. An easy doer. Good on any bud.

W. H. Head. A very large deep bloom with long reflexing and curling florets in the style of "The Hon Mrs. Lopes." The color is richest golden yellow, very striking, a very robust grower. A sure winner. Take bud August 5th to 20th. Prices (except where noted) **50c Each, \$5.00 per doz.**

CHRYSANTHEMUM NOVELTIES OF 1912.

Aesthetic (Smith). A fine yellow, beautiful as the name implies. **Price 50c each, \$5.00 per doz.**

Artistic Queen (Smith). A fine clear pink. **Price 35c each, \$3.50 per doz.**

Annis L. Angus (Totty). A fine giant, white. **Price 50c each, \$5.00 per doz.**

SINGLE CHRYSANTHEMUMS

The single Chrysanthemum has come to stay. They are gaining popularity every year. For cut flowers, table decorations, etc., they cannot be equalled.

They are of the easiest possible culture, and can be successfully flowered in cold frames.

We are very pleased to offer this year six new single varieties which were raised by Henry J. Osterhauadt, gardener to Wm. P. Clyde, Uplands, New Hamburg, N. Y.

The six varieties we offer below are the cream of about fifty good varieties that he has raised and they are certainly worthy of a place in every collection.

Uplands. A beautiful bronze variety with the lower half of the petals quilled somewhat after the style of Bishop Henninghaus. A strong grower and has a fine built flower 4 inches across.

Gold Finch. A delicate primrose colored variety with narrow petals, a very striking thing. A strong grower and good for either bush plants or cut sprays.

Polly Harris. A clear canary yellow with tubular petals which open at the extremities. Could well be called a yellow Bishop Henninghaus. A very striking variety.

Marie Clyde. A very pleasing shade of rich golden amber with base of petals slightly quilled, a very beautiful and robust thing, a good grower and fine keeper.

Amber. Color a light golden amber, early. One of the best for all purposes. Makes a fine pot plant.

Marshall H. Clyde, Jr. Large pure white, one of the very best whites to date, excellent for either cut sprays, or for bush plants. **Prices 25c each; \$2.50 per doz.**

HARDY POMPOM CHRYSANTHEMUMS

No finer plants can be grown in the hardy border for late fall flowers than these hardy Pompon Chrysanthemums; or, if grown in open frame or beds all summer and protected from early frosts, they will repay you with much nicer flowers.

Seven Oaks. A new hardy yellow variety which blooms from July till frost. The stems are rather short at first but lengthen as the season advances, attaining eventually a length of from 24 to 30 inches. It is naturally adapted for sprays but if disbudded will make flowers 4 to 6 inches across.

White Bedder. This is very similar to "Seven Oaks" except the color which is a creamy white on opening, fading when fully developed to pure white.

Aquisition. A splendid pink of the same type, shading to lavender rather later in blooming than the two above varieties. A very strong grower, making a bush three feet high and as much through.

Price—25c each; \$2.50 doz.

CARNATIONS

Novelties for 1913.

Wm. Eccles. We offer this grand carnation with the utmost confidence. It will assuredly beat everything in its color on the exhibition table, and it will hold its own with any existing sort as a producer. It was awarded the First Prize at the Carnation Society's Convention in Detroit (Jan'y 1912) for the best 100 blooms, red or scarlet. Also the Silver Medal of the New York Horticultural Society (March 1912) for the best undisseminated variety, and first class certificates wherever shown.

Has the color of Flamingo; a strong rigid stem; a perfectly formed 3½ inch flower: non-bursting calyx. Highly perfumed. A grand keeper and as free as any carnation today. No private gardener can afford to be without this.

British Triumph (Engelmann). This is one of the finest things that has been raised in England. The color is a very striking shade of crimson. The flower is 3½ in. size and well built, and the calyx does not burst. It has the finest perfume of any carnation ever raised and its keeping qualities are the best. Our stock was late in arriving from England but even now it shows up well as a producer. There is nothing in its color to equal it today.

Lady Northcliffe, (Engelmann). This is another British variety of promise. While the flower is not the largest (about 3-inch) it has a most pleasing color of salmon pink, somewhat resembling "Pink Delight." It has a well built up flower, and there is just enough in it not to burst the calyx. It is remarkably free, and we believe it will make a profitable sort.

Enchantress Supreme (Dailedouze). The best sport from Enchantress to date, possessing all the vigor and freedom that distinguishes its parent. Color a light salmon pink—a color that is not only very attractive, but also one that endures full exposure to the sun without bleaching, and retains its color at all seasons. The calyx is longer and narrower than the parent variety and has shown no inclination to be a burster.

Salmon Beauty (Traendly and Schenck). This is another Enchantress sport which has been widely exhibited and has received much favorable comment. It is stronger than the parent in every way and a much better color.

We will also be glad to render any assistance in their selection for any situation that they may be wanted for.

Let us have your list to figure on.

CARNATION NOVELTIES OF 1912

Benora, (Fisher). The best variegated variety on the market today. An ideal flower, and a profuse producer, and fully maintains the raiser's reputation.

Brooklyn (Weber). A free flowering dark cerise pink. An improved Wm. Scott.

Wodenethe, (Totty). The phenomenal white carnation of last year. Does not produce very freely in the fall, but makes up for lost time as the days lengthen.

ROSES (INDOOR)

Novelties for 1913

Milady, (Pierson). This rose is a hybrid tea, a cross between Richmond and J. B. Clark. The habit of growth is strong and sturdy and foliage excellent. The flower is large and double and opens perfectly at all seasons of the year. In color it is similar to Richmond. It is wonderfully productive and has excellent keeping qualities. A grand forcing rose for which there is lots of room.

Mrs. Chas. Russell, (Waban Conservatories). The most wonderful rose we have ever seen. It has proved to be a strong, vigorous grower, and its freedom of bloom is remarkable for a rose that is fully as large as an "American Beauty." The color is a clear rose pink, and its fragrance reminds you of the "Old Cabbage Rose." It has received the highest honors wherever exhibited. It has surely come to stay.

Mrs. Geo. Shawyer, (Totty). Something new and entirely distinct in a pink rose. It reminds one of Bridesmaid, but the bud is much larger and bigger in every way. It is a strong, healthy grower and will no doubt displace Killarney in a short time. No one can afford to miss this.

ROSES (INDOOR)

Novelties of 1912

Sunburst. This rose has fully met our expectations. Its orange-copper color was long looked for. Its long pointed bud with stiff stem, combined with vigor of growth, puts it in the foremost ranks both as a forcing or out-door rose.

Double White Killarney. This white sport is all that the name implies. It is also stronger, freer and better than the parent in every way. The one white rose for indoor use, and equally good out door.

Killarney Queen. This variety is not quite so productive as the parent Killarney, but it has a wonderfully dark color and the flowers are borne on larger, stiffer stems; a more fancy rose in every way and demands a place.

ROSES (INDOOR), GENERAL COLLECTION

Our grafted roses have given satisfaction everywhere. They are low grafted on best English manetti stock.

Antonie Rivoire. Light shell pink; vigorous.

Aaron Ward, Mrs. Orange yellow, very hardy.

Kaiserine Aug Victoria. Fine White; vigorous.

Killarney. Pink. The old stand by.

Killarney Double Pink. Lighter in color, but more vigorous than the old variety.

Killarney White. The most popular white variety.

Lady Hillington. A fine clear yellow.

My Maryland. The freest indoor pink sort.

Pres. Carnot. A fine shell pink.

Radiance. The freest dark pink in existence.

Richmond. The standard red, very free.

We carry a good line of Herbaceous plants and are adding more every year. We will gladly quote prices and advise regarding varieties for various situations and flowering seasons.

Our stock of Herbaceous Paeonies is very complete. We devote about two acres of our nursery to these and have from one to four year old clumps as desired in the leading and best sorts. The prices range from 25c to 75c according to size and variety.

We also have a very extensive and up to date collection of Iris, both in German and Japanese varieties. There are parts of our nursery particularly adapted for their growth and in their flowering season any one will enjoy seeing them. We have upwards of fifty varieties both double and single. We will be glad to hear from any who are interested. Prices range from \$1.50 to \$3.50 per doz.

HARDY ROSES

For the past two seasons we have devoted a good deal of space to the newer varieties of hardy roses, and we offer below those that have proved to be of special merit.

Betty. The color is a glowing coppery-rose, suffused with yellow. Once this rose is well established it produces wonderful roses in great profusion. **50c each; \$5.00 doz.**

Edward Mawley. This rose has caused a big sensation in England where it was awarded the gold medal of the National Rose Society. In color it is beautiful rich crimson, touched with maroon. It promises to be the best thing in crimson that we have. Plants in 4-inch pots. **\$1.00 each; \$10.00 doz.**

Farbenkonigin. (Queen of colors). A very large, showy, fragrant rose. Imperial pink in color. One of the most popular roses in Europe. **50c each; \$5.00 doz.**

George Nabonnand. Color delicate flesh, suffused with yellow. Produces flowers in great abundance right up till frost. **50c each; \$5.00 doz.**

Jonkheer J. L. Mock. This is a sterling novelty. Produces flowers with greatest freedom, of large size and perfect form. The stems are stiff and erect. The color is rich imperial pink and highly perfumed. **75c each; \$7.50 doz.**

FERTILIZERS

We are regular agents for the sale of Rogers and Hubbard's celebrated bone base fertilizers, and will be glad to quote bottom prices, where a quantity is needed.

Hubbard's Pure Raw Knuckle Bone Flour. This is the kind you want for your Roses, Mums and Carnations. The bone is white, raw, and fresh, and in a perfectly natural condition. This bone is not dissolved with acid, but is **ground** to a white flour, and is quickly available as a plant food. Do not confound this with the ordinary brands of bone, which are dissolved with oil of vitrol. They are all right for the open fields, but positively dangerous in a greenhouse.
Per bag of 100 lbs., \$3.00; per ton, \$45.00.

Hubbard's Bone Base Complete Fertilizer. This is what you need for your garden and general crops. Consists of pure animal tankage, nitrate of soda, and potash salts, and does not contain one pound of acid phosphate.
Per 100 bag, \$2.50; per ton \$45.00.

Hubbard's Bone Base Soluable Potato Manure. Made up of pure dissolved raw knuckle bone, nitrate of soda, pure animal tankage and sulphate of potash. This is a highly concentrated fertilizer and is good for general crops as well as potatoes.
Per bag of 100 lbs., \$3.00; per ton, \$52.00.

Also **Hubbard's Bone Base, "Grass and Grain Fertilizer," "Oats," and "Top Dressing Fertilizer,"** and others, on which prices will be gladly quoted.

Clay's Fertilizer. 56 lb. bags, \$4.00; 112 lb. bags, \$7.00.

GRASS SEED

Elmsford Evergreen Lawn Grass Mixture—We have made an extensive study of grasses, and have here combined in one mixture several of the very best kinds in such proportions as will give the best results. Some of the kinds are naturally early and give the lawn a bright color as soon as spring opens up. Others will stand the heat and drought of summer, and others again will keep growing until late in the Fall. We consider our "Elmsford Evergreen Mixture" to be as good as any on the market today.

For new lawns, sow 85 to 100 lbs. to the acre. per bushel (20 lbs.), **\$6.00.**

The Elmsford Shady Spot Grass Mixture—A combination of grasses that naturally grow in shady places, of guaranteed purity and free from weeds.

Per bushel, \$6.00.

Permanent Pasture Mixture.—A combination of various grasses recognized for their good pasturing qualities, a combination that will keep growing from early spring until late in the Fall. Sow 50 to 75 lbs. per acre.
